

POPE IN PUBLIC GIVES RED HAT AT ST. PETER'S

Americans in Big Throng
Which Sees the Pontiff
Honor Cardinals.

SIX BEFORE HIS THRONE.

Pius X., After Officiating at
Impressive Ceremony, Holds
Private Consistory.

ROME, April 18.—A public consistory was held at the Vatican to-day with great ceremony, and even additional interest, as such ceremonies under Pope PiusX have been less frequent than during the last pontificate, and consequently aroused greater expectation. This being the season, in which Rome is crowded with tourists, especially Americans, the demand for tickets was phenomenal, and St. Peter's was thronged. The tribunes erected for the occasion contained the family of the Pope, the Roman aristocracy and the members of the diplomatic corps.

The procession accompanying the Pope was long and interesting, being composed of many and various nobilities, each monk, priest, layman or Papal official having a different costume, and while black predominated color was not wanting.

The Swiss Guard headed the procession, and the Noble Guard surrounded the person of the Pontiff, who was dressed in white. He was preceded and followed by the bishops and archbishops.

When the Pontiff was seated on the throne the six new Cardinals advanced, one by one, to receive the red hat. Each prostrated himself at the feet of the Pope, while the master of ceremonies held a magnificent red hat over the Cardinal's head, and the Pope, saying "Ecce uenimus regnum," &c., rose and gave the Papal embrace.

The new Cardinals then passed from Cardinal to Cardinal to receive the kiss of brotherhood, while the choir sang the softest music. The only Cardinal created at the Secret Consistory, April 18, was not present. Mgr. Agostino Nunciotti, the Papa, Nuncio at the next public consistory.

The Pope then imparted the Apostolic blessing and withdrew, surrounded by his court and guards, to preside later at a supplementary secret consistory, the object of which is the insertion of returning thanks before the altar of the Sistine Chapel.

The United States was represented at the ceremony by Robert Seiden of New Jersey, titular Archbishop of Philadelphia; Mgr. Thomas O'Gorman, Bishop of Sioux Falls; and Mgr. John Joseph McCormick, Director of the American College. The students of the American College were also present as well as the American students of the College of the Propaganda.

"CHOCOLATE MAN" AN AUTO SPEEDER

Said He Was A. W. Powell
and Gave \$600 Stop
Watch as Bail.

It took a Bicycle Policeman Harry Trade twenty blocks to overtake an automobile last night in upper Broadway.

You've been going just thirty-two miles an hour," he announced when he finally got his hand on the machine and informed the young man at the wheel that he was under arrest.

At the One Hundred Street Police Station the speeder said he was "Alexander W. Powell, the chocolate man," residence No. 226 West Seventy-second street."

He didn't have \$100 cash bail, but Capt. Burfleld accepted a stop watch which looked like a gun. Mr. Powell said it was a "stop watch."

Louis Livingston, a broker, of No. 49 West Forty-fourth street, was arrested in Fifth avenue last night for driving his automobile at a high rate of speed at the East Fifty-first Street Police Station, he said he was "Louis Bull, Great Neck, L. I." This didn't square with the record in the automobile register, so he was held.

The speeder admitted he was Livingston.

He sent a messenger for \$100 bail and got away from the police after half an hour's detention.

STOKES NOT OF THE RICH; JUST A PLAIN SOCIALIST.

Holds the "Few Thousands Left Him" Only to Prevent It Being Wrongly Spent.

CHICAGO, April 18.—J. G. Phelps Stokes, of New York, Socialist and Settlement House worker, denied last night that he was a millionaire, and said that his highest ambition was to be a consistent socialist and remain a member of the "working class."

In demonstration of this, and in order to prove his sincerity, Mr. Stokes announced that for a year he had not used any of the few thousand dollars his father had left him, but had devoted and would continue to devote it all to the Socialist propaganda. He said he kept it in a strong box, "but it is one of the hands of some other man who would make wrong use of that which he had not earned."

Mr. Stokes, who is a Socialist, was staying at Hill House. He arrived from New York yesterday with his wife, who was Rose Pastor.

BISHOP GUEST OF ACTORS.

Bishop Potter will be the guest of honor from the church and Miss Amelia Langdon from the stage at the Actors' Church Alliance entertainment to be given under the direction of Irene Acosta, April 18 at 8 p.m. Chryston's Hall, Thirty-ninth street and Seventh Avenue.

"Martha" Well Sung
at the Manhattan.

MASKED BURGLAR'S FISTS CAME HANDY

Spitz Toy Dog Also Does His Part in Making Escape Successful.

Frank Ost, a chef, got home at 11 o'clock last night to find a masked man trying to pick the lock of his apartment on the third floor of No. 19 Amsterdam avenue. He seized him and yelled to his wife to open the door and "Let out the dog."

The dog was a toy Spitz, but the burglar didn't know that. He knocked the chef down and made for the roof. Ost picked himself up and ran after the fellow. As he reached the roof Mrs. Ost let the dog loose.

The Spitz thought its master was off for a run, so it began to bite at his heels and dash between his legs. Ost upset the chef, but he kept on bravely over the roofs of the adjoining houses until at No. 117 the burglar dived into a penthouse and ran down to the avenue. He ran Ost into Sixty-sixth street and half way to Tenth avenue, where he turned and knocked Ost down again.

When Ost came to the burglar was not in sight, nor was he able to find a policeman until he got to the West Sixty-eighth Street station, where he told what had happened to him. The desk sergeant said "an effort" would be made to find the burglar.

Dr. Darlington and John J. O'Brien, Commissioner of Water Supply, Gas and Electricity, on condition of remaining anonymous, told the police the watered which threatened to pollute the water supply of New York.

The State Department has been trying to have the waterworks and the village authorities have refused, maintaining that the city of New York should pay for the damage done to the pipes.

Dr. Darlington and O'Brien told the waterworks to stop the water.

KINNICKUTT-TUCKERMAN.

Miss May Tuckerman and G. H. Kinnickutt will be married to-day in the Church of the Incarnation. After the ceremony there will be a reception in the William Earl Dodge house in Madison avenue.

URGE FILTRATION PLANT.

State Health Department Wants to Avoid Water Pollution.

Dr. Eugene H. Fligner, State Health Commissioner, has come out in a strong letter to Dr. Darlington, urging the construction of a filtration plant to protect the waterworks. His letter followed the miners' strike.

Dr. Darlington and John J. O'Brien, Commissioner of Water Supply, Gas and Electricity, on condition of remaining anonymous, told the police the watered which threatened to pollute the water supply of New York.

The State Department has been trying to have the waterworks and the village authorities have refused, maintaining that the city of New York should pay for the damage done to the pipes.

Dr. Darlington and O'Brien told the waterworks to stop the water.

KINNICKUTT-TUCKERMAN.

FAIR PLAY.

The American People are Noted for Their Love of Fair Play. So True Is This, That It May Be Said To Be a National Trait of Character.

The man who strikes another a foul blow, or maliciously tries to injure him in his business, or in his social standing is detested and abhorred. The American people are not generally slow to manifest their disapproval of such unfair treatment when an opportunity is afforded.

Illustrative of this disposition is the fact that although base, false and malicious attacks upon Dr. Pierce, of Buffalo, and his widely celebrated Family Medicines have sometimes injured the sale of these meritorious remedies for a time, yet when such unjust assaults have been met and their falsehood completely refuted, a natural reaction has followed and their sale has been fully restored again.

In the case of the *Ladies' Home Journal*, of Philadelphia, which, in 1904, published a most malevolent falsehood, slanderous and libelous article, attacking Dr. Pierce's favorite prescription—the well-known formula for curing peculiar weaknesses and distressing ailments—Dr. Pierce brought suit in the Supreme Court of the State of New York against the publishers of that paper and a verdict was given the Doctor, the judgment being for a substantial sum (\$16,000.00) yet not for enough to properly recompence Dr. Pierce for the great injury and injustice done him. While he and his "Favorite Prescription" were completely vindicated and the latter remedy was proven, in open court, to contain no alcohol and none of the dangerous and injurious drugs which the above mentioned paper had alleged it contained, yet Dr. Pierce, through his attorney, moved for a new trial trusting that thereby he may finally be accorded a more just and adequate compensation for the great damage which he was made to suffer by reason of the base falsehoods published

concerning him and his business.

There are hundreds of thousands of people all over this blessed country who have been cured of diseases which did not respond to the use of Dr. Pierce's Medicines and it is only natural that such people should rise up and speak their sentiments pretty freely when Dr. Pierce and his medicines are so uniformly attacked.

These grateful patients of Dr. Pierce are to be found in almost every hamlet and country village, and in the farm-houses and mechanics' cottages in every nook and corner of this great country. Common gratitude prompts such people to stand up and defend Dr. Pierce and his medicines against unjust and malicious attacks.

Dr. Pierce's Medicines have been on sale in drug stores all over this country and in many foreign lands for more than forty years and yet their sale continues to grow in a substantial and most gratifying way. This could not be the case if they were not remedies of more than ordinary merit.

Dr. Pierce's Favorite Prescription is not advertised as a "Cure All" but admirably follows the simple rule of providing a superior and more powerful remedy for cases of disease only—those easily recognizable weaknesses and painful disorders peculiar to women. It is a powerful, yet gently acting, invigorating, tonic and strengthening medicine. For weak, worn-out and over-worked women, no matter what has caused the break-down,—whether it be from too weary, care, or over exertion of any kind, Dr. Pierce's Favorite Prescription is the best and surest—no medicine will do that, but for all obstinate hang-on-coughs due to laryngeal or bronchial irritation and kindred affections of the throat which, if neglected or badly treated, are likely to lead to chronic consumption, the "Discovery" can be relied upon to produce the best curative results.

The "Golden Medical Discovery" is, from its tonic and specific curative control over mucous surfaces, especially efficacious in curing indigestion, grippe, sore throat, constipation, "bad colds" or biliousness. Even ulceration of the stomach and bowels has in thousands of cases been cured by it; also obstinate chronic diarrhea.

Its power to all the foregoing, not the least valuable of the marvelously efficacious properties possessed by the "Discovery" is the unequalled regulating and strengthening effect exerted by it over the entire system. It has made some wonderful cures, very often of a valuer and other effects of that organ.

The reason why "Golden Medical Discovery" cures so wide a range of diseases is made plain in a booklet sent free on request mailed to Dr. R. W. Pierce, Buffalo, N. Y. In this is set forth

The useful alternative of blood purifying properties possessed by the "Discovery" will naturally suggest its use for the cure of blotches, pimples, eruptions; as eczema, salt-reum, and other skin afflictions in all of which it has made remarkable cures. It is also a valuable aid in the treatment of ulcers, or sores.

To heal the latter, use Dr. Pierce's All-Healing Salve as a local application, while taking the "Golden Medical Discovery" to correct the blood and cleanse the system. It is a specific, cleansing, soothing and healing effect upon the lining mucous membranes of the system, hence, its great curative value in all catarrhal affections no matter where located.

WHAT DO THEY CURE?

Dr. Pierce's Favorite Prescription is not advertised as a "Cure All" but admirably follows the simple rule of providing a superior and more powerful remedy for cases of disease only—those easily recognizable weaknesses and painful disorders peculiar to women.

It is a powerful, yet gently acting, invigorating, tonic and strengthening medicine. For weak, worn-out and over-worked women, no matter what has caused the break-down,—whether it be from too weary, care, or over exertion of any kind,
